AN EVENT OF IMPORTANCE

Dedication of the New Y. M. C. A. Building.

DREAM OF 20 YEARS

Is Realized in New Home of the Young Men's Christian Association—Opening Exercises in the Presbyterian Churcn.

ELOQUENT ADDRESS BY ROBERT SPEER.

The dream of twenty years ago was realized Friday night when the dedicatory exercises in connection with the new Young Men's Christian Association were held in the Presbyterian church. Everyone in our little town is familiar with the struggle that has been going on in our midst to establish a Y. M. C. A. The Y. M. C. A.'s of the past have been located in small rented rooms with poor equipment and their efforts have been carried on at a great disadvantage. This week there was thrown open to the public for the first time a handsome building, splendidly equipped with gymnasium, bowling alley, game rooms, reading rooms, baths and study rooms. We have now a Y. M. C. A., that will compare favorably with any Y. M. C. A. in a town of this size in the state. Bellefonte is and should by justly proud of its Y. M. C. A., and give it earnest, hearty support, for the good that it will do among the young men of our town will be very great.

The big church edifice was crowded Friday night with eager intelligent audience who manifested the greatest interest and enthusiasm in everything that was done. The friendly rivalry now going on beween the teams of young men known as the Red and Orange teams respectivelo, was manifested by the colors Orange and Red which decorated the rear of the platform. Seated on the stage were the ministers of the town, Gen. Beaver, Robert E. Speer of New York city, Former Secretary L. B. Hindman and others.

General Beaver whose presence in a meeting of any kind is always an inspiration, presided over the gathering. The choir consisted of twelve male voices as follows: C. C. Shuey, James Furst, Russell Blair, A. Lukenbach, Prof. John Hosterman, J. C. Meyer, John Bullock, Jas. Taylor, Oakley Pantel, L. A. Schaeffer, John Blanchard, Edward Riddle. Miss Kate Brisbin handled the big pipe organ with skill and the music rolled forth harmoniously under her magic touch.

The opening hymn was "Onward Christian Soldiers" which was sung with a will by everyone present, all standing. Gen. Beaver announced that the Red team was ahead in securing members for the Y. M. C. A. but he hardly had time to finish until Prof. Hosterman handed him down $20.00 which put the Orange ahead. This created much enthusiasm. The Scripture lesson was then read by Rev. Ambrose Schmidt, pastor of St. John's Reformed church. Prayer was offered by Rev. A. Davidson, of the United Brethren church. The voluntary was then rendered by the choir.

Gen. Beaver then made a brief address in which he gave the history of the Y. M. C. A., movement in Bellefonte, especially the struggle for a new building. He told of a little breakfast held at his home 20 years at which the late Dwight L. Moody, Gov. Curtin, Major Reynolds and others were present. At this meeting Mr. Moody expressed his hope that new Y. M. C. A., buildings might be erected in Bellefonte. Ways and means for doing so were discussed. Before leaving S. A. Taggart, state secretary of the Y. M. C. A., building wrote in the General's guest album "This is the beginning of a Y. M. C. A. building for Bellefonte."

Gen. Beaver complimented the good work of Secretary Hindman and the generosity of F. W. Crider and C. T. Gerberich which made a Y. M. C. A., building possible. The total cost of the Y. M. C. A., Building, equipments and all has been $21,612.00. There is a $5,000 mortgage on the building and a debt of $3,015.82. It is estimated that it will cost $3000 a year to run it. The receipts from various sources will be about $1500.00 a year.

Gen. Beaver then introduced Robert E. Speer of New York city, as the principal speaker of the evening. He spoke touchingly of his last visit here fifteen years ago, when he occupied the pulpit of the Presbyterian church during Dr. Laurie's summer vacation which the latter spent in Europe. He spoke of the faces that are missing now. He paid a touching tribute to the memory of Hugh McAllister Beaver, in whose memory the new Y. M. C. A., gymnasium is erected.

He congratulated Bellefonte on having such a splendid Y. M. C. A. building, and compared it with the quarters occupied 15 years ago. He made an eloquent address, the pith of which was that we should always "do the will of God." It was full of splendid encouragement to young and old and held the attention of all from start to finish.

Prof. John Hosterman sang a beautiful solo which was highly appreciated.

Secretary Hindman of Washington was called on and made an address full of feeling. He told how his heart was in the work and how he sympathizes with efforts of our people here to get the movement started. He aroused the enthusiasm of all present and their heart strings tingle by stating that he would furnish the reading room entire at his own expense within the next six months.

There were also brief addresses by a representative of the State Y. M. C. A., and by the new local secretary Mr. Meserve.

The meeting was closed with the benediction by Rev. R. Crittenden.

After the meeting many visited the Y. M. C. A. building and inspected it in spite of the lateness of the hour.

Sad Death of Mrs. Wm. Smith.

A very sad and untimely death was that of Mrs. Will H. Smith, which occurred at the Hayes sanitorium about one o'clock Thureday afternoon. Just before Christmas Mrs. Smith with her two children came here from Johnstown to spend the holidays with her mother, Mrs. Otto. At that time she was in good health but a couple days after Christmas she was taken suddenly ill and her ailment was of such a nature that it was deemed best to take her to the Hayes sanitorium for treatment. From the very start she grew steadily worse with only brief intervals of apparent improvement. Last week her condition was such that her family physician, Dr. Wakefield, of Johnstown, was sent for and came here in consultation with the local physicians. Thursday morning her condition was so grave that the only hope of prolonging her life was an immediate operation which was performed at 10 o'clock, Dr. Wakefield again being present. Her system, however, was so run down that she never recovered from the anaesthetics administered, dying at the time above stated.

Deceased was a daughter of the late Hamilton and Mrs. Martha A. Otto and was twenty-five years of age. In October, 1900, she was united in marriage to Will H. Smith who survives her with two small children. For three years past the Smiths have made their home in Johnstown. She was a member of the Methodist church and a highly esteemed young woman. In addition to her husband and two children she leaves her mother, two brothers, Morris H. and Harry D., and two sisters, Mabel and Helen.

The funeral took place Sunday afternoon at 2. o'clock from the residence of Mrs. Hamilton Otto on East Lamb Street. Interment in the Union cemetery.

Firemen Helpless as Woman Was Incinerated.

Erie, Feb. 13th.—Mrs. Teresa Hart 72 years old, burned to death Sunday while firemen, unable to reach her stood by powerless to relieve her agony.

A spark had set fire to the woman's clothing, and in attempting to smother the flames the bed clothing caught fire and communicated to the wood work of the room.

When the firemen arrived there was no water at hand and the firemen were unable to enter the blazing room. When the flames were finally extinguished the woman was found dead, her body horribly burned.

Death of Mrs. George Fortney.

Mrs. George Fortney, of Boalsburg, died Friday morning, aged about 71 years, at the home of her daughter Mrs Annie Patterson in the above mentioned town.

Her death was due to a general breaking down of the system incident to old age. She was the mother of 8 children; six boys and two girls, all of whom survive her, as does one brother and two sisters. The funeral occurred Monday. Rev. A. A. Black officiating. Interment at Boalsburg.

MANY FATALITIES

Steam and Electric Railways Scenes of Accidents on Sunday.

ONE WAS NEAR YORK

Three Men of Fast Freight Killed in a Collision With Passenger Train.

TROLLEY CARS COME TOGETHER

York, Pa., February 12.—Three men were struck and killed by an accommodation locomotive train on the Northern Central railroad near Seitzland, sixteen miles south of this city, early Sunday morning. The men who were killed comprised part of the crew of a fast north bound freight train.

The dead are:

Silas Adler, conductor, of Baltimore.

John C. Baughman, engineer of New Freedom, Pa.

Frank McFadden, brakeman, of Baltimore.

One of the tires on the driving wheel of the locomotive burst and the men were repairing it when the passenger train struck them. They were blinded and deafened by the escaping steam and did not notice the approach of the accommodation. The bodies were brought to this city and later removed to their respective homes. The coroner's jury rendered a verdict of accidental death.

Mahanoy City, Pa., Feb. 11th.—Two crowded trolley cars came together in a head-on collision in a heavy fog today on the Lakeside railway at Robinson's near here, injuring and maiming over a score [illegible] of whom will probably die. One of the cars left a siding where it should have waited for the passage of the other car. The injured passengers were riding in the forward vestibule of the cars. Those within the cars escaped with slight bruises. The forward ends of both cars were stove in.

Motorman William Frick, who is believed to be fatally hurt, was pinioned fast on his platform and it was almost an hour before he was released. Francis McLaughlin aged 18 years, and Thomas Carson each lost a leg, McLaughlin is likely to die. Others seriously hurt are: Charles Carson, Patrick O'Brien, Michael Doyle, Patrick Tierney, John and Patrick Coyne, William Dowling, Thomas Hayes, Louis Hillebush, Nellie Tahaney and Dora Coyne.

Greenboro, N. C., Feb. 11th.—Four men were killed early this morning when a north bound passenger train on the Southern railway ran into an open switch in the new railway yard just north of Pomona and crashed into a switch engines both locomotives being thrown from the track. The engineer of the passenger train, Owen Norville was buried under one of the engines and was scalded to death by escaping steam.

The others killed were: Yard Engineer Sellers, Yard Conductor Newman, Fireman Johnson. No passengers were injured.

Lighting Rod Agent Swindles Farmer.

A few days ago a well dressed man driving two fine horses in a buggy, stopped at a farm house in Spruce Creek Valley representing his name as Reynolds and a son of a rich man of that name in Centre Co. He asked permission to put up lightning rods on the buildings as an advertisement, costing the farmer nothing. The farmer agreed to this and also said he would be willing to give $10 or $15. The man filed up an article of agreement which the farmer signed. The former then left saying the rods would be put up in a few days.

The same day another man drove up and placed rods on the buildings. After he was through he showed the article of agreement in which the farmer was to pay $150 for the job. After some controversy swindler No. 2 agreed to settle the affair for a note for $208, payable at the Blair County Bank in ten days. Of course the note, having the name of a well known farmer affixed to it, could be cashed at any place and it was then impossible to prevent the rascal getting the money.

We do not mention the name of the farmer as he appeared such an easy mark.

MET IN TYRONE

Important Matters Which Came up at Session of Huntingdon Presbytery

The Presbytery of Huntingdon met in special session in the church of Tyrone at 1 p. m., Tuesday and was opened with prayer by the Rev. W. H. Schuyler, Ph. D., the last moderator present, who was later elected moderator. pro tem.

The call was issued by the moderator in accordance with chapter X, section 10 of the form government, to transact all business arising out of a call extended by the churches of Glen Richy and Pine Grove Bethel to the Rev. A. S. Carver, and his desire to be released from the latter relation to accept the call. To appoint a moderator for the session of the vacant church at Bellefonte.

Ministers present: W H Schuyler, Ph. D., J H Mathers, D. D., R. M. Campbell, G T Gunter, A S Carver, L. N Leith, J E Irvine, Ph D.

Elders present: Geo. Noll, Milesburg F H Hagerty, Sinking Valley; G B Porter, Tyrone; John Palmer, Glen Richey.

The Rev. L N Reith was elected permanent clerk pro. tem.

A call from the church of Glen Richey for the pastoral services of the Rev. A. S. Carver, promising him $500 per annum in regular monthly payments for two thirds of his time, was read and found in order.

A call from the Pine Grove Bethel church for the pastoral services of the Rev. A S Carver promising him $150 in regularly quarter payments for one-third of his time, was read and found in order.

The Rev. A S Carver asked that the pastoral relations existing between the churches of Milesburg and Lick Run and himself be dissolved. After hearing from the commissioners that the churches acquiesced, after due consideration the pastoral relations were dissolved to take effect March 1, 1906.

The calls from the churches of Glen Richey and Pine Grove Bethel were placed in Mr. Carver's hands and accepted. The Rev. A S Carver and Elder John Palmer were appointed a committee to arrange for Mr. Carver's installation and reported later as follows:

The date of the installation is March 6, 1906. Pine Grove Bethel at 3 p. m., and Glen Richey at 7:30 p. m. The Rev. N H G Fife, D. D., is to preside and propose the constitutional questions and charge the pastor. The Rev. L. N. Leith to preach the sermon and the Rev. Samuel Barber to charge the people. The report was approved.

The Rev. E L Kenedy was appointed to preach at Lick Run and Milesburg and declare the pulpits vacant on March 4. 1906.

The Rev. W A Schuyler, Ph. D., was appointed moderator of the churches of Lick Run and Milesburg.

The churches of Milesburg and Lick Run were given permission to supply themselves.

The Rev. J. P. Hughes was appointed moderator of the Bellefonte church.

Presbytery adjourned and was closed with prayer by the Rev. R. M. Campbell and the benediction by the moderator.

Even Stole in Jail.

Easton, Pa., Feb. 12.—The worst boy in Northampton county was taken to a house of refuge by order of the court. The boy Erwin Brown, 11 years old, and was brought down from Bethlehem. In court his father said he could not manage the little rascal, and the only way he could be kept in school was by chaining him to his seat. He stole everything he could get his hands on and carry.

In less than half an hour after he was taken to the jail he had stolen a paper of tobacco from one of the prisoners, and ten minutes later lifted a package of cigars that had been presented to another convict. Then the warden turned him loose in the jail yard. He soon found his way to the power house and lost no time in getting the engineer's penknife into his own pocket. He did not steal any thing else, for he was put in a cell in which there was nothing portable.

Death of George Hoy.

George W. Hoy died Saturday at 2:15 o'clock at his home in Pine Hall, aged about 40 years. He had been a sufferer for a number of years with bronchial trouble.

He is survived by his mother, Mrs. Albert Hoy, his wife, eight children, five sons and three daughters, also five brothers and 2 sisters.

Funeral, took place Monday morning at 10 o'clock. Interment in Pine Grove cemetery. Rev. Heckman officiating.

THE LEGISLATURE!

Members are Hustling Along in the Matter of Various Inquiries.

CREASY'S RESOLUTION

The Senators Concurred in it Monday Night by a Viva Voce Vote

WANT ANOTHER EXTRA SESSION

Harrisburg, Pa., February 13.—The Creasy resolution directing the attorney general to investigate the charge that certain railroad companies of Pennsylvania are violating the state constitution by engaging in the mining of anthracite coal, was adopted by the senate by a viva voce vote. The senate also adopted, with only two dissenting votes, the Wayne resolution asking the governor to call a special session of the legislature at the close of the present session to permit the enactment of legislation to allow trolley companies to carry freight.

The house adopted a resolution Monday night directing the attorney general to investigate the allegation that certain railroad companies of Pennsylvania are engaged in the business of mining bituminous coal. The house adopted a resolution authorizing the creation of a commission to investigate the statement of President Baer, of the Philadelphia and Reading Railroad company, in which he declares that his company has not violated the constitution and laws of the state. Both of these resolutions will come up in the senate for concurrence.

In a spirit of fun a resolution was offered in the house Monday night and then withdrawn requesting the governor to enlarge his call for the extra session for the enactment of legislation with a view of restoring passes to all public officers. This resolution was offered, following the introduction and adoption of resolutions to open the way for the enactment of legislation fixing the uniform rate of 2 cents a mile for carrying passengers, making illegal the $10 rebate required by the Pennsylvania railroad company on all $20 mileage books sold, and to give trolley companies the right to eminent domain.

A Pretty Wedding.

A very pretty wedding was solemnized at the home of Frederick Robb of Romola when his eldest daughter, Elizabeth M., was married to Mr. Wilbur F. Hall, of Howard, at 5:30 p. m. Wednesday, when the twilight was hovering over the western horizon, and Miss Emma Robb, sister of the bride, seated at the piano, playing most effectively Lohengrin's wedding march to which the bridal party were ushered into the parlor by their attendants, Mr. Samuel M. Robb brother of the bride, and Miss Tasey Magdalene Pletcher, niece of the groom.

The bride and groom were met at the altar by Rev. Harvey I Crow of the Reformed charge who pronounced them husband and wife. Immediately after the ceremony the company was ushered into the dinning room where an elegant wedding dinner was served.

The happy couple departed amid showers of rice etc., on the 8 46 p. m. train to eastern cities on a short honeymoon trip, after which they will return to Howard, where Mr. Hall will resume his position as postmaster.

John S. Burrell's Misfortune.

John S. Burrell, son of William Burrel, of East Nittany valley, went to Philadelphia on Friday accompanied by Dr. J. M. Dumm, of Mackeyville, and entered the German hospital to undergo an operation for a disease of the bone of the lower jaw. The young man had a tooth extracted about a month ago, which was followed by ulceration and then the jaw bone became diseased. An X-ray examination was made Sunday by Dr. Deaver, the celebrated specialist, as a result of which it was found necessary to perform an operation Monday, in order to remove the decayed bone, and stop the further destruction of the jaw.

Mr. Burrell is a bright and popular young man and his many friends sincerely trust that he will be all right in a short time. He is a member of the senior class at State College and would have graduated next June had he not been compelled by this misfortune to give up his studies.

IN THE HOUSE.

Fortifications Appropriation Bill Held Its Attention.

Washington, Feb. 14th.—The fortifications appropriation bill held the attention of the house Tuesday and was the text for considerable heated argument, first over the lax methods of expenditure of public moneys and second, over the location of the proposed $15,000,000 naval station for the Philippines.

Mr. Smith, of Iowa, in charge of the fortifications bill, advanced the idea of vitalizing ten of the committees of the house charged with supervision of expenditures in the various government departments. He advocated an amendment to the rules which will compel reports from these committees anually, these reports to be the result of investigation regarding government expenditures. He urged this as a preventative of bureaucracy towards which he saw a present tendency.

When at 4 35 o'clock the general debate had been exhausted Mr. Smith moved that the committee of the whole rise so that adjournment might be had.

Mr. Gillespie, of Texas, who had made an effort to get printed in the record a petition he had received from the Bituminous coal operators and shippers of Pennsylvania setting forth their grievances, made a second attempt, but Mr. Payne, of New York, made objection, whereupon Mr. Williams, the minority leader, took the motion in hand and fought the motion to adjourn. A rising vote, a vote by tellers and then a roll call carried the motion, 106 to 64, and adjournment was declared at 5.10 o'clock.

Long Journey in a Wagon.

Charles Ward a civil war veteran 70 years old, and his wife, aged 65, who have traveled in a one-horse wagon overland all the way from Butte, Mon., about 1600 miles says a Uniontown, Pa., dispatch to the Chicago Chronicle, spent the night in Uniontown and continued on their way to Harrisburg, where they will visit their son. They left Butte October 13. Mr. Ward was formerly a veterinary surgeon and his wife a school teacher.

Their worst misfortune on this trip was at Bardstown, Ill., where a lantern exploded and the entire top of the wagon and $48. nearly all the money they had, went up in smoke. During the trip Ward was sick in the wagon four weeks with the grip, but continued his journey his wife looking after the horse. In all kinds of weather they have slept in their little wagon, guarded by their faithful animal, half dog and half wolf. They are making the trip for the benefit of Ward's health.

New Scheme to Defraud Public.

Dealers in food products who are ever on the alert for some scheme whereby they may increase their profit by selling adulterated products to their customers, have been caught at a new trick by the officials of the dairy and food department several Altoona butchers being among the offenders who are likely to pay dearly for their violation of the law. Their newest scheme is to make sausage of one-half pork and one-half potato flour and water. The potato flour, which costs two cents a pound is used to absorb the water, which thus makes up more than one-third of the weight of the sausage. A sausage as large in circumference as a man's wrist, when cooked is no larger than his thumb.

Dr. B. H. Warren, chief of the dairy and food department, has issued orders to his agents to bring prosecutions against the offending butchers, as he desires not only that they be punished but that the public may know who they are.

Division Agent James Foust, who has charge of the work in Allegheny county Monday made his report for the month of January to Dr. Warren, the figures showing the amount of work accomplished going ahead of anything in the history of the department from the standpoint of revenue. During the month 140 wholesale and retail oleo licenses and 30 renovated butter licenses were issued. These licenses amounted to $27,000. Mr. Foust brought during the month 42 prosecutions for violations of the oleo law and 70 for other violations, on all of which but 18 the fines were paid and the cases settled before the alderman. These fines aggregated $8,000, making a total of $35,000 turned over to the department Monday by him.

Keiser—Pawling.

On Wednesday evening at 7 o'clock Mr. John W. Keiser and Miss Pawling of West Milton, Union Co., were united in marriage by Rev W. M. Rearick of the Lutheran church at the parsonage on West Curtin St. Both the bride and groom are members of the leading families of their native community and are highly respected and popular among their many friends. They will leave for an extended wedding tour in other cities.

Curious Welsh Superstition.

Small glasslike, irregular circlets of some crystallized mineral are occasionally found in the mountains of Wales, and concerning these the Welsh people have some curious superstitions. Some believe that they are formed in the body of a snake as soon as he reaches the age of 100 years, while others declare that they are formed "of froth and venom" when two large male snakes meet. Camden, the great English historian and antiquarian, says: "It is usual for snakes to approach on St. John's eve and by joining heads together and hissing to form a kind of bubble, which passes through the snake and immediately hardens till it resembles a glass ring. Whoever finds one of these rings will ever after prosper."

Rude Baron Steuben.

Baron Steuben was known as the rudest, roughest, most uncivil and discourteous officer in the Revolutionary army. He spoke English to some extent—that is, he knew most of the oaths and expletives and had other words enough to string them together—but when a little excited he would burst forth into a most extraordinary mixture of German, French and English and in this polyglot composition would abuse everybody in hearing.

is in favor of independence, and my own judgment concurs with them; therefore I vote for the Declaration."

And so Caesar Rodney by his famous ride and by his noble vote helped to settle the question of independence and insured the future celebrations of the Fourth of July.

He Ate Often.

Doctor—You must take a quarter of an hour's walk before every meal. Stout Patient—But, doctor, you surely don't want me to walk all day long!—Fliegende Blatter.

Affection soothes, it hallows, elevates, subdues and bringeth down to earth its native heaven.—Landon.

A SPECIAL SENSE.

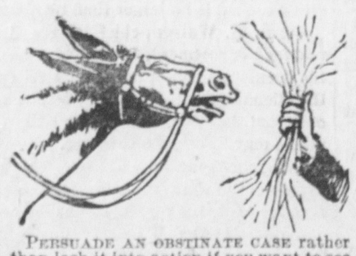
That Which Unerringly Directs a Shark to Carrion.

It is a curious thing and, so far as present knowledge goes, quite inexplicable how a shark seems to have an unerring perception of the presence of carrion. By virtue of what sense does he know that at a distance of perhaps a couple of miles there is food to be had for the picking up? It can hardly be sight, and to say that it is the sense of smell presupposes an olfactory apparatus of such marvelous delicacy that one good whiff from an average "harness cask" would surely burst the machinery for good and all. And yet our shark will bolt a goodly lump of the gamiest salt pork without so much as a wink. No, it cannot be his nose which leads him.

Now a theory has been put forward by naturalists that the shark possesses, in common with the Andes condor, a special sense, or instinct, which is denied to cleaner feeding animals. The naturalist cannot explain this sense. He confesses, in fact, that he knows nothing about it. But he can give it a name. He calls it the "carrion sense," and with that name, which, of course, explains nothing at all, expects us to be satisfied.—Pearson's Magazine.

Wedding Gift For Miss Roosevelt.

One of the most recent and interesting pieces of information relative to Miss Alice Roosevelt's marriage to Mr. Nicholas Longworth is that all of the members of the party who accompanied them to the Philippines will unite in presenting the young couple with a splendid wedding gift in the shape of a souvenir of the journey, says the New York Tribune's Washington correspondent. This will in nowise interfere, of course, with the individual gift from any member of the party, but will be an imperishable memento to remind them of the friends who added to the pleasure of the trip.



PERSUADE AN OBSTINATE CASE rather than lash it into action if you want to see good progress made. This is as true when it is a faulty human system as when it is a baulky mule.

Alcoholic stimulants and alcoholic medicines whip the digestive functions into quick action but do not prevent the weakening reaction *which follows so closely.*

In cases of impaired appetite and digestion—mal-nutrition and wasting away, a safe and reliable tonic is needed and is the only thing that can be relied upon.

Dr. Pierce discovered, forty years ago, that Nature had provided freely for these needs of her children and that in *her laboratory* were the remedies. Glyceric extracts of Golden Seal root, Queen's root, Stone root, Black Cherrybark, Bloodroot and Mandrake root, as prepared, combined and preserved without alcohol, in *Dr. Pierce's Golden Medical Discovery*, constitute the most effective and certain tonic, alterative and tissue rebuilding remedy ever offered to the public.

A prominent merchant, Mr. J. Alfred Arcand, of 669 Saint Lawrence Street, Montreal, Canada, writes: "I have used Doctor Pierce's Golden Medical Discovery off and on for nine years. When I have it in the house I need no doctor or other medicine. Nine years ago I was troubled with rheumatism. Your 'Golden Medical Discovery' eliminated the uric acid from the system. Since that time I have never been without it in the house. There is no other medicine I think so much of, nor none I think its equal. Every one to whom I recommended it is pleased with the results, and all thank me for advising its use. It is a splendid remedy for stomach trouble; cures colds in a few days, and is the only sure cure I know of for 'La Grippe.'"

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the paper-covered book, or 31 stamps for the cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

DARING WILD BRUTES.

The Panthers of India and How They Secure Their Prey.

In certain parts of India the panther is named "bipat," which means calamity, for he is an ever present scourge among the people. His proper name is tendwa. It is the habit of these panthers for a family of them to quarter themselves on a circle of villages within convenient distance of their nightly prowlings. As soon as the sun is below the horizon they sally forth from the cover of the surrounding forests and watch the paths by which the village herds and flocks return to their resting places. If a meal cannot be secured then, later on they enter a village and patrol the dark lanes in the boldest manner. Nothing comes amiss to them that is not too large and heavy for their strength.

Children, dogs, goats and the young cattle are their favorite quarry. They are bold enough to dash into a hut even with a light burning in it, seize their prey, then rush away with lightning speed and, with a noiselessness that is marvelous, retreat with their prize to the nearest cover and there devour it. In the morning the poor villager, following the tracks of the retreating animal, soon arrives at the few remains of his goat or calf or maybe his child.

In the following way the natives get their revenge: A stray dog is caught in the village and is tied out on the path generally frequented by the panther family. The bait is carried off during the night and devoured close by. Next day a machan (platform) is fixed in a convenient tree, and in the evening a kid is tied on the spot occupied by the dog on the previous night. The sportsman settles himself in the machan before sunset and begins his watch.

Terrified by his lonely position, the kid begins a frantic bleating, which soon attracts the panther marauders, which are skulking about near the spot where they found their last meal. A short stalk soon brings them to the kid and directly under the concealed sportsman, who shoots the beasts. It is impossible to follow the panthers into the impenetrable cover they frequent, and they never show themselves in daylight.—Chicago News.

English as She Is Written.

The publication which was once brought out in Portugal bearing the title "English as She Is Spoke" has for a long time enjoyed a worldwide reputation. Tourists on the continent of Europe sometimes come across examples of English quite as curious as that of the Portuguese author.

In the bedroom of a hotel at Genoa the following notice was found: "The lamentations of the waiters are obliged to be made at the bureau." It was in a hotel also, and not a church, that the following request was made in writing: "Visitors are prayed into dinner when the bell rings, that they may not disturb the order of the service." There is a hotel advertisement in Calais station to the following effect: "Quite a peculiar animation resides at this fashionable spot of Paris. In the rear the grand opera of a splendid architecture on one side of the Grand hotel, entirely made afresh and in a more extensive way, is the meeting of all strangers of distinction." Finally, this curious legend has recently been seen on a notice board on a garden wall in Jersey, one of the Channel islands: "Any dog found in this garden the proprietors of the dog paid one pound sterling for each times."

Easing the Pressure.

"Mr. Kiljordan," said the young man with the bill, "would it be convenient for you to"—

"No, it wouldn't!" stormily interrupted Kiljordan, looking up with blood in his eye. "You addle pated idiot, don't you know enough not to interrupt a man when he's at work? The payment of this installment isn't due till tomorrow anyhow, you daddinged lunkhead! For half a cent I'd throw you out of the window. Take your gumdasted face out of here or I'll"—

The terrified youth waited to hear no more. He darted out through the door and made for the stairway, down which he went three steps at a time.

"What ails you, Kiljordan?" asked the man at the other desk. "Why did you try to scare that boy half to death?"

"I've no grudge against the boy," he answered, turning to his work, "but I couldn't swear at the woman with the gentle manner and the neighborhood charity scheme who buzzed me for half an hour before he came in, and I had to let out on somebody."—Chicago Tribune.

Made a Strike Too.

In an imperial city a criminal was condemned to be beheaded who had a singular itching to play at ninepins. While his sentence was pronouncing he had the temerity to offer a request to be permitted to play once more at his favorite game at the place of execution, and then, he said, he would submit without a murmur. As the last prayer of a dying man, his request was granted. When arrived at the solemn spot he found everything prepared, the pins being set up and the bowl ready. He played with no little earnestness, but the sheriff at length, seeing that he showed no inclination to desist, privately ordered the executioner to strike the fatal blow as he stooped for the bowl. The executioner did so, and the head dropped into the culprit's hand as he raised himself to see what had occurred. He immediately aimed at the nine, conceiving that it was the bowl which he grasped. All nine falling, the head loudly exclaimed, "I have won the game!"—From the German.

ST. SWITHIN AND RAIN.

The Legend of the Chapel Over the Bishop's Grave.

The superstitions referring to particular days are very numerous. The legend of St. Swithin is an example that will occur to every one:

St. Swithin's day, if thou dost rain,
For forty days it will remain;
St. Swithin's day, if thou be fair,
For forty days 'twill rain nae mair.

St. Swithin, bishop of Winchester, according to the author of "The Popular Antiquities," was "a man equally noted for uprightness and humility. So far did he carry the latter virtue that on his deathbed he requested to be buried not within the church, but outside the churchyard on the north of the sacred building, where his corpse might receive the eavesdroppings from the roof and his grave be trodden by the feet of passersby. His lowly request was complied with, and in this neglected spot his remains reposed till about 100 years afterward, when a fit of pious indignation seized the clergy at the fact that the body of so holy a member of their order was allowed to occupy such a position, and on an appointed day they all assembled to convey it with great pomp to the adjoining cathedral of Winchester. When they were about to commence the ceremony a heavy rain burst forth and continued without intermission for the forty succeeding days. The monks interpreted this tempest as a warning from heaven of the blasphemous nature of their attempt to contravene the direction of St. Swithin, and instead of disturbing his remains they erected a chapel over his grave." "St. Swithin is christening the apples" is the more poetical way of describing St. Swithin's rain.

The Moon's Phases.

The phases of the moon are caused by its relative position to the earth and the sun, so that when it is full moon in one part of the earth it is full moon in all parts of the earth, and so for all its other phases. The moon revolves around the earth once in twenty-seven days, though on account of the earth's revolution around the sun the mean duration of the lunar month—that is, the time from new moon to new moon—is twenty-nine days, twelve hours and forty-four minutes. The "dark of the moon" is that half of the lunar month during which the moon shines least at night.

"Home, Sweet Home."

"Home, Sweet Home," Payne's song, was originally a number in the opera "Clari, the Maid of Milan," a production brought out in 1823. The opera was a failure, and nothing is now known of it save the one song, which became instantly popular. Over 100,000 copies were sold in the first year of its publication, and the sale in one form or another has been constant ever since the first appearance of this beautiful theme. The melody is a Sicilian folk song and was adapted to the words by Payne himself.

Cabs Will Have Lamps.

Paris taxameter cabs are to be fitted with small electric lamps, which will be at the service of the fare upon his slipping a small coin in the slot. The light will glow about half an hour for each coin.

SEED TIME

The experienced farmer has learned that some grains require far different soil than others; some crops need differenthandling than others. He knows that a great deal depends upon right planting at the right time, and that the soil must be kept enriched. No use of complaining in summer about a mistake made in the spring. Decide before the seed is planted.

The best time to remedy wasting conditions in the human body is before the evil is too deep rooted. At the first evidence of loss of flesh

THE WOMAN WHO COUGHED.

Catarrh had nearly ruined me. It had eaten away the partition in my nose; produced Asthma, Bronchitis, Rheumatism; ruined my stomach; in fact, gone all through my system. Then Grip finished me. I was a wreck; took cold at nothing; and coughed day and night. The doctors dosed me with opium and quinine. No good. Cough "cures"? Bah! Then Brazilian Balm renovated me. Killed every germ. Took 10 $1.00 bottles. Now I'm like a girl of 18.

LANGUAGE IN SOBS.

London Lancet Calls Them Monosyllabic Sentences.

If the average man were asked why he sighed, groaned or moaned he would probably be at a loss for a reply.

The London Lancet, however, whose columns seldom fail each week to add to the gayety of the nations, makes the cause of these peculiar manifestations of discontent perfectly clear, says a London special cable dispatch to the Chicago Inter Ocean. The Lancet says:

"There is no doubt that there are considerable mental comfort and relief obtained from a series of long drawn sighs during a period of sorrowful depression or from noisy ejaculations of the nature of groans and moans made by a sufferer from such a painful disorder as acute dyspepsia or violent toothache.

"Sobbing, sighing, moaning and groaning are, as it were, sentences in a monosyllabic cosmopolitan language.

"These sounds are really the vocal representation of certain overwrought physical or mental states consequent in general upon a longer or shorter period of inhibition of the rhythmic discharge of the respiratory center situated in the spinal bulb. The diaphragm has been fixed, the breath either voluntarily or involuntarily has been held or has been shallow, while breathless introspective attention has been paid to some absorbing pain or sorrow.

"This condition is markedly present in patients suffering from melancholia, who continually and deeply sigh. If this expression of excessive psychical stimulation is rapidly and vigorously performed a cry of anguish or of fright may result, whereas at the other end of this series of phenomena is the feeling of 'wanting to sigh,' well known among those who are run down in general health.

"At times these sounds are emitted with the sole object of eliciting the sympathy of bystanders. This is notably the case with hysterical cries."

PALATIAL AUTOMOBILES.

Sleeping Facilities Novel Feature In W. G. Brokaw's French Car.

W. Gould Brokaw of New York will within a few months be the possessor of three of the handsomest automobiles in America, says the New York Times. Each will be a foreign machine of a different make, but their unusual features lie in the luxurious carriage bodies that he has ordered from Parisian carriage builders. The finest of the three will be fitted to a new fifty horsepower Fiat car, and it is said that this will be the most palatial automobile carriage body ever built. It will be of the limousine or covered type. The interior seats will be so arranged that they may be made into a berth for sleeping if desired. There will also be a washstand with a complete toilet outfit, an ice box, a lunch hamper, while all of the minor conveniences, as electric lights and electric signals for the driver, will be included. The car will be able to carry from four to six passengers besides the driver, and the body has been especially designed for long and comfortable tours.

A new seventy horsepower Mercedes recently purchased by Mr. Brokaw will be fitted with a Victoria top body, while his third car is a ten horsepower Renault, which will be fitted with a coupe top body, and the driving will be done by the passenger inside the carriage.

The fashionable colors are blue, garnet and pearl gray, and in most of these bodies the upholstery is made to match. The inside driven cabs are the newest things in France and are very popular for use by doctors and others who desire the advantages of a runabout without being exposed to inclement weather. What is known as the demountable limousine is another new form of body. It is generally called the "khedive" type, from the fact that the khedive of Egypt had the first of these made to order.

CHURCH IN SKYSCRAPER.

Chicago Congressman Will Worship With Offices on All Sides.

Chicago's tallest church soon will rise at Washington and Clark streets if the plans which were undertaken the other night are carried to completion, says the Chicago News. These plans contemplate a $1,000,000 skyscraper on the site now occupied by the First Methodist church. Within the great building will be a large auditorium for the accommodation of the worshipers. The rest of the building will be devoted to offices.

Steps to improve the property were taken at a joint meeting of the First Methodist and the Trinity Methodist churches. A committee of three was appointed to memorialize the trustees of the property to begin work on the improvement at once.

Town's Big Dance For Farmers.

The farmers of Brown and adjoining counties in the state of Minnesota are to have the time of their lives on Feb. 16, according to the plans of Manager Charles Gottschalk of the new auditorium, says an Aberdeen (Minn.) correspondent of the St. Paul Pioneer Press. He plans to open the auditorium on that date with a farmers' dance, and his committees are scouring the country roundabout with sheaves of invitations, which are being eagerly accepted. The affair is to be exclusive. No townspeople are to be admitted to the building on the night of the ball. Farmers, their wives, their sisters, daughters and sweethearts are to have full sway, and the affair promises to be one of the biggest and most successful social events ever held in Aberdeen. The dancing floor will accommodate 130 sets in a square dance and thousands of dancers for the waltzes and twosteps.

Sixty weeks for $1.75.

The new subscriber to The Youth's Companion for 1906 who at once sends the subscription price $1.75, will receive free all the remaining issues of the paper for 1905. These issues will contain nearly 50 complete stories, besides the opening chapters of Grace S. Richmond's serial "The Churchills' Lucia Strong," a sequel to her story of "The Second Violin," which appeared in the early weeks of the year. Madame Sembrich will contribute an article on "Sovereign Traits Among Tots," and there will be two stories by May Roberts Clark and one by J. "Tales of a Pawnee Hero."

These will give a foretaste of the good things in store for 1906, full illustrated announcement of which will be sent to any address free with sample copies of the paper.

New subscribers will also receive a gift of The Companion's "Minutemen" Calendar for 1906, lithographed in twelve colors and gold.

All old-time Cough Syrups bind the bowels. This is wrong. A new idea was advanced two years ago in Kennedy's Laxative Honey and Tar. This remedy act on the mucous membranes of the throat and lungs and loosens the bowels at the same time. It expells all cold from the system. It clears the throat, strengthens the mucous membranes, relieves coughs, colds, croup, whooping cough, etc. Sold by, Green's Pharmacy.

EARLE C. TUTEN.

A CURIOUS MALADY.

It Exists to an Alarming Extent in Bellefonte.

A disease that is spreading with alarming rapidity is described in a recent issue of the New York Tribune. It is called Morbus Sabbaticus, or Sunday sickness. The attack comes on suddenly on every Sunday, no symptoms are felt on Saturday night; the patient sleeps well and wakes feeling well; eats a hearty breakfast, but about church time the attack comes on, and continues until services are over for the morning. Then the patient feels easy and eats a hearty dinner. In the afternoon he feels much better, and is able to take a walk, talk politics and read the Sunday papers; he eats a hearty supper, but about church time he has another attack. He retires early, sleeps well, and wakes up Monday morning refreshed and able to go to work, and does not have any symptoms of the disease until the following Sunday. The peculiar features are as follows :

First. It always attacks members of the church.

Second. It never masks its appearance except Sunday.

Third. The symptoms vary, but it never interferes with the sleep or appetite.

Fourth. It never lasts more than twenty-four hours.

Fifth. It generally attacks the head of the family.

Sixth. No physician is ever called.

Seventh. It always proves fatal in the end—to the soul.

Eighth. Religion is the only antidote.

Ninth. It is becoming fearfully prevalent, and is sweeping thousands every year permanently to destruction.

New Cave Beats the Mammoth.

Danville, Ky., Feb. 13.—The discovery of a cave eight miles from Danville and two miles east of Parryville promises to rival in grandeur the famous Mammoth Cave at Edmondson, Ky., Irvine Parks, John Mitchell, Eugene Carpenter, Joseph and George Godoey, after one week's exploration of the cave, returned with tales of wondrous scenes. All of them had visited the Edmondson cavern and they unite in declaring the new cave offers curiosities that are fairly bewildering.

They carried lanterns and at one section of the cave the reflection on the walls of the rays from the lanterns were almost dazzling. Fragments of the wall were brought back by the exploring party and at first glance they resembled a mirror. Throughout the eight miles traversed by the party glistening and fantastically shaped objects abounded. Occasionally birds were seen and other strange animals never beheld before by the men in the party, went tumbling through the darkness. Five possums and seven coons were captured one of the coons weighing 50 pounds.

Alice Roosevelt's Picture.

A particularly opportune newspaper feature will be issued with the next Philadelphia Sunday Inquirer on Sunday, February 18—the day after the marriage of Miss Alice Roosevelt and Mr. Nicholas Longworth.

This will consist of an excellent reproduction of a most recent photograph of Miss Alice Roosevelt, handsomely printed in colors in vignette style, with a background of the new "Alice Blue" and a picture of the White House beneath it. It makes a very pretty souvenir of the much talked of wedding, and there will undoubtedly be an enormous demand for this issue.

Those who would be sure of getting a copy should place their order with their newsdealer at once, as the edition is of course limited to the number of souvenir pictures on hand.

About Dancing.

A young man fond of dancing recently took a pedometer with him to a dancing party, and found that, in the course of the evening he covered thirteen and a half miles. The average length of a waltz was half a mile, of a gallop or a chottieche a mile and of lancers a quarter of a mile. A girl usually dances more than a man and is calculated to cover more than sixteen miles in a single evening.

A "Christian" Influence in a Christian Direction.

I am glad to know that the Bellefonte Y. M. C. A. is now in earnest, sparing no pains or gains in endeavors to enlist all the lads and young men in and out of town, for practical "godliness that is profitable unto all things, having promise of the life that now is and of that which is to come," Tim. 4:8. It is hoped that the Y. M. C. A. management will be such that by its christian influence, it will reach the homes of the dear boys and lads who have no homes, reaching after those who have a constant struggle against Godless hindrances at the homes such as they have, a struggle for food and raiment for the necessities and some comforts of life and that is a struggle for money to provide such things. These boys (there are many of them, in the fore-front of life's battle) need all the christian culture and "nurture of the Lord" that can be given them, that they may overcome the evil besetments surrounding them, and so become "more than conquerors" and have occasion to "thank God who giveth us the victory through our Lord Jesus Christ."

Some one may say "in that passage concerning "godliness," you quoted Scripture only in part, the first clause you omitted." Very well. Here it is. "Bodily exercise profiteth little." There are many, some of them fairly good Bible students, who take it from this inspired utterance that the great Apostle means to tell us, that bodily exercise is of little account, of no great importance and of little profit to any body. What does he verily say? "It profiteth little," Place emphasis on the second word and not on the third, it "profiteth;" and there is no loss or damage to any one only so far as it is excessively done. For present and everlasting gain bodily exercise in comparison with godliness is of little profit and of verp short duration.

With this understanding of that apostolic declaration which is strictly in accordance with the original Greek text. The Y. M. C. A. gymnafium is commendable for physical culture and athletic games according to scripture if this bodily exercise is taken not intemperately, but by safe guarded moderation. This leads me to say in conclusion that all the members of the Y. M. C. A. are most cordially invited to join the Safeguard Temperance Society requiring no entrance fee or diversion of funds from the Association and a clear gain of at least fifty dollars in a short time for each member of this Saving Society as sure as he lives. A tasteful certificate of decision emblematically designed is in preparation. In a few days copies will be placed in the hands of General Secretary Meserve who will know what use to make of them.

BUILDING ADDITIONAL KILNS.—The lime and limestone business in this locality is booming and promises to at no very distant time be the one big industry in Centre county. Following close upon the opening of the Whiterock quarries at Pleasant Gap the American Lime and Stone company are now at work building six new kilns at their Armor Gap quarries. This addition to their plant at that place has been rendered necessary because of the fact that they have been unable, for some time past, to fill orders promptly or even supply the demand for lime. The building of these additional kilns will also render necessary the employment of quite a number more men.

SPITTOON OF SIDEWALKS.

A Filthy Practice That Should Receive the Attention of Those in Authority.

Much has been said in these columns during the past year about spitting on the sidewalks, but the practice is still in style with no sign of abatement. The board of health or someone ought to investigate this matter, for it is an outrage to common decency as well as a fearful menece to health.

Why don't some of our public spirited ladies get interested in this matter and petition council to pass and enforce anti spitting ordinance?

Many towns with not half the prestige for common decency that Bellefonte has have passed and are enforcing such an ordinance. A few arrests and fines for this piggish practice would jog some people's memories sufficiently to make them walk to the curb and spit in the gutter, or as President Smith of the Ohio Northern University, said recently, "Let them spit in their pocket or off the earth.

After hours of expectoration on the side walks on a Saturday night it is absolutely a disgrace that ladies must walk over these foul walks to church the next morning. Why are men so thoughtless? Are they absolutely devoid of a sense of common decency in this respect? Why don't they spit on the floor in their homes; over the parlor carpet and on the cook stove? Perhaps they do; who knows? Men usually do not display better manners at home than they do in public.

The above applies principally to tobacco users; but once in awhile some thoughtless sufferer from catarrh or tuberculosis comes along and leaves on the sidewalk such horrible evidences of his disease as makes one look around for a clean place to vomit.

This is plain, unvarnished talk but we want it to be plain; we want it to be impressive, so much so that our good people will think about the matter and demand the passage of an ordinance prohibiting the vile, disgusting practice. The practice will not cease in 50 years unless someone is made to suffer for the filthy habit of making a spittoon of the sidewalk.

CURTIN STATUE COMPLETED. — The Curtin statue in this place has been entirely completed and has been boarded up from foundation to top in which condition it will be kept until the day of unveiling and dedication on June 8th. The soldiers' monument is not yet finished. The bronze tablet representing "War" is in place and has been veiled and boxed up. The other tablet representing "Peace" had to be sent back to the factory for resetting, as it came here in a badly warped condition. So far none of the bronze name plates have been received, and as there are quite a number of these it will take some time to set them, when received, and this will complete the monument with the exception of the paving to be done around it, which in itself will take considerable time. So that there is yet a lot of work to be done before everything will be in shape for dedicating the same.

FORTNEY—LONG.—George Fortney, son of Mr. and Mrs. John Fortney, of Pine Grove Mills, and Miss Effie Long, were married at the home of the bride's aunt, Mrs. Emma Stamm, near Boalsburg, Wednesday evening. The wedding was a quiet one only the immediate friends of both parties being present to witness the ceremony, which was performed by Rev. A. A. Black. In the spring Mr. and Mrs. Fortney will take up their residence on the Stamm farm which the groom has rented.

They were last seen shortly after midnight Sunday night, and Monday afternoon when their room was broken open both were dead and the gas was turned on

Wedding.

The marriage of Miss Effie Mae Long to George Donley Fortney took place Wednesday evening, 7th inst., at the home of the bride's mother, Mrs. Emma Stamm, near Boalsburg. The groom is the only son of Mr. and Mrs. John Fortney, of Boalsburg.

This was a quiet home wedding, none but the immediate families of the contracting parties being present. The marriage ceremony of the reformed church was read by Rev. A. A. Black.

Both the young people are respected and industrious, and have the congratulations of their many friends.

Mr. and Mrs. Fortney will go to housekeeping on Mrs. Stamm's farm.

Snow Storm Delayed Travel.

Philadelphia, Feb. 10.—The snow storm which prevailed throughout the eastern portion of Pennsylvania was the heaviest of the winter. In the mountain regions from 15 inches to two feet of snow were reported. Steam railroad and electric railway traffic was considerably delayed during the early hours of the day, but last night the situation was so much improved that there was little or no delay reported. A large number of colliers in the anthracite regions were unable to operate because of the scarcity of cars and the inability of sufficent men to reach the mines.

TO THE PUBLIC

Concerning Pianos.

No matter what pretense is made by any firm, from anywhere, for selling Pianos cheap, I will duplicate any instrument offered on the same terms of payment.

We have such noted High Grade makes to select from as the Knabe, Behr Bros. Schomacker, Briggs, Haines Bros., Hobert M. Gable, Brumbach, and all the other Standard makes and we guarantee to furnish the Pianos of your choice at as low cost as you can procured it elsewhere.

Honest Pianos, with honest representation, at honest prices, and terms to suits.

Have you ever received a gold dollar for ½ or ¼ its value?

Don't be deceived when offered a Stencil or a Low Grade Pianos of prices more than its real worth.

Remember there is a lot of Piano Hypocrisy.

A Stencil piano is one which does not bear the name of the maker, is therefore an irregular piano of indefinite origin low grade and misleading.

A word to the wise is sufficient.

They offer you something securing value for a small price and when the victims have all bitten and begin to get uneasy they are gone.

Schemes of this kind fatten upon fatal propensities of people to go away from home to get something for nothing instead of patronaging the home business man who helps makes the town.

WE ARE HERE TO STAY to be responsible to you for every instrument we sell and every promise we make and when our guarantee goes with them you have something, because we are in business right here all the time paying taxes here; rents here, living here, and contributing our share to charities here, so that we ask you in all candor, and justice to us, that if you want to buy a piano let us sell it to you right here.

We carry a complete line of high grade organs, piano case, and cottage styles at bargain prices, on terms to suit.

Second hand and slightly used Upright pianos from $75,00 and upward.

Square pianos in good condition at $35,00, $40.00 and $60,00.

Thanking you for past patronage, we cordially invite you to call and see our display of fine pianos.

STURDY FARMERS KEEP OFF ALL CATARRHAL ILLS BY TAKING PE-RU-NA.

Pe-ru-na Cures Catarrh Wherever Located.

Pe-ru-na a Necessity in the Home.

J. B. Alexander, Publisher of the "Fruit and Floral Guide, A Magazine of Horticulture," published in Hartford City, Ind., says of Peruna:

"I was afflicted with catarrh of the throat and head for over ten years. I was treated by many physicians, but grew worse until I was seldom able to go out in cold weather.

"About one year ago I was advised to try Peruna, which I did, and I am now entirely well of the catarrh.

"Peruna is a necessity in our home. With the first symptoms of a cold we use it, and are never afflicted with catarrh.

"I advise all who are afflicted with catarrh to try Peruna. There is certainly nothing equal to it as a catarrh medicine."—J. B. Alexander.

Pe-ru-na is a Systemic Remedy.

If Peruna will cure catarrh in one place, it will cure it in any other place, because it is a systemic remedy.

Pe-ru-na Always on Hand.

Mr. Fred Schnell, Lakeview, Erie Co., N. Y., writes:

"I had been a sufferer for more than thirty years with catarrh of the intestines. I had used a great deal of medicine to no avail, so I decided to try Peruna.

"I have now used thirteen bottles and can give you the joyful tidings that I have no more trouble. I always keep Peruna on hand."—Fred. Schnell.

The people generally are very much misinformed as to the nature of catarrh.

Catarrh is usually believed to be confined to the head, nose and throat. Latterly we sometimes hear of catarrh of the stomach and catarrh of the bladder. Seldom, if ever, do we hear of catarrh of any other organs.

It is not because these organs are not subject to catarrh, nor that catarrh of these organs is not a very common disease, but simply because it is not generally known that affections of these organs may be due to catarrh.

Had Catarrh Thirty Years.—Pe-ru-na Cured Him.

Mr. Gustav M. Schmidt, Spring Valley, Ill., writes:

"I had catarrh of the head and throat for over thirty years. It became worse every year.

"About three months ago I commenced to take Peruna and Manalin, and now I am entirely cured of that troublesome sickness. Your medicine is surely a blessing to mankind.

"You can truly say that you have not lived in vain, Doctor, and I thank you for the good you have done me. May you enjoy a long life to help suffering humanity."—Gustav M. Schmidt.

Dr. Hartman Makes Personal Use of Pe-ru-na.

In speaking of his own personal use of Peruna, Dr. Hartman says:

"For a number of years my professional duties have compelled me to be much on the road, traveling long distances by rail, night and day, exposed to all kinds of vicissitudes, sleeping and eating in different hotels continually, and through it all I have preserved myself from any derangement of the body resulting from catching cold.

"At the slightest evidence of a cold, a few doses of Peruna invariably checked it."

Pe-ru-na a Household Friend.

Mr. Henry Schroeder, Route 2, Napoleon, O., writes:

"I suffered for almost ten years with catarrh of the stomach and all doctoring was of no avail.

"I took nine bottles of Peruna and two of Manalin and am now entirely cured.

"I recommend the medicine to all who are afflicted with this disease. It is my household friend."—Henry Schroeder.

A Farmer's Talk to Farmers.

Before Dr. Hartman began the study of medicine he was a farmer boy. He was brought up on a farm in Southern Pennsylvania.

He belonged to that industrial, successful class of farmers known as the Pennsylvania Dutch, the best farmers in the world.

It was here that he early learned the lesson of pulling obnoxious things out by the roots.

Dr. Hartman's Method of Treating Catarrh.

Naturally, when he began the study of medicine his mind turned instinctively toward the removing of causes. He could not content himself with doctoring symptoms any more than his enterprising father could have contented himself by pulling off the tops of weeds to eradicate them from the soil.

The Doctor turned his attention early to the science of removing the cause of diseases, believing that obnoxious symptoms would disappear if the cause of the disease was removed.

In other words, Dr. Hartman applied the common sense of the practical farmer to medicine, and after much experimentation Peruna was compounded.

The sensible farmer does not think of cutting off the tops of weeds to kill them. He pulls them up by the roots.

Dr. Hartman Interested in Farming.

Notwithstanding Dr. Hartman's busy professional career, he still continues to be interested in farming. He is the owner and manager of one of the largest farms in the State of Ohio, with several thousand acres of the best tilled land in the Middle West, and with hundreds of the best blooded percheron horses ever imported or raised in this country.

Dr. Hartman relies upon Peruna entirely in case of sickness in his own family.

At Work on the Farm.—Praises Pe-ru-na.

Geo. H. Thompson, Raleigh, Miss., writes:

"I have been cured of catarrh by your medicines, Peruna and Manalin. I had been affected with catarrh of the stomach about all my life, and was taken bad every spring and summer.

"I used several kinds of patent medicines, but they did me no good. I then took a treatment under an M. D., which did me but little good. By this time I had got where I could eat nothing but a little soup. I had severe pains, had lost in weight and could not do anything.

"I began taking your medicines, Peruna and Manalin. I then weighed 126 pounds, but after taking 17 bottles of Peruna and one bottle of Manalin, I weighed 166 pounds.

"I am now at work on the farm and feel well all of the time. I eat all I want to and my friends say that I look better than ever before. I will ever praise Peruna for its healing power."—Geo. H. Thompson.

A reward of $10,000 has been deposited in the Market Exchange Bank, Columbus, Ohio, as a guarantee that the above testimonials are genuine; that we hold in our possession authentic letters certifying to the same.

The entertainment given by the Epworth League in the Grange Arcadia on last Saturday evening was a success both financially and as an entertainment.

Mr. Strohm, teacher of the grammar school has been sick for the past week with a severe cold and at the time of this writing is still bedfast.

The house occupied by Mrs. Durst who died last fall was bought at trustees sale by William Mitterling, J. Paul Rearick of the firm of Rearick Bro. moved into it a few days ago.

The Centre Hall base ball team will give an entertainment in Grange Hall on the evening of the 24th. Proceeds for the benefit of the club.

George Smith one of Potter townships old teachers is filling a position as an officer and teacher in the Reform School at Morganza, Washington Co. His salary is about $400 a year including board and medical attendance. Hiram Grove who was one of Gregg townships teachers for a number of years is one of the old teachers and officers of that institution, having been promoted to the position of first officer over a year ago. A first officer receives $500 a year and boarding.

There is a rumor that the Penn's Valley Oil Co. will make another attempt this spring to drill for oil, or gas. The attempt to put down a test well last summer while it was a failure on account of the rock forcing the drill to one side so that they were unable to case the well but nevertheless it proved that a good supply of water can be easily obtained by drilling if at any time there should be a dearth of water. It also demonstrated that water can easily be obtained for manufacturies in Centre Hall. The want of water has always been considered a drawback to the locating of industrial plants here.

Blew up Safe; Shot Innocent Passenger.

Exeter, N. H., Feb. 10th.—Two burglars blew up the safe in the Dover shoe factory office at an early hour this morning, and after rifling the contents, and securing a sum of money, escaped on a Boston and Maine train. The conductor attempted to arrest the desperate men, when the train arrived here, whereupon they opened fire and killed one of the passengers. They then took to the woods. Excitement is intense, and a posse of officers and citizens are in pursuit.

Stated and Facts.

The editor of an Indiana paper grew tired of being called a liar so e announced that he would tell the truth in the future. The first issue therefore contained the following:

"John Bonin, the laziest merchant in town, made a trip to Bellville yesterday."

"John Coyle, our groceryman, is doing a poor business. His store is dirty, dusty and noxiously odoriferous. How can he expect to do much?"

"Rev. Styx preached last Saturday night on 'charity.' The sermon was punk."

"Dave Sonkney died at his home in this place. The doctor gave it out as heart failure. The fact is he was drunk, and whiskey is what killed him."

"Married, Miss Kate Rhoads and James Conban, last Saturday evening at the Baptist parsonage. The bride is a very ordinary town girl who doesn't know any more than a jack rabbit about cooking, and never helped her mother three days in her life. She is not a beauty by any means, and has a gait like a fat duck. The groom is well known as an up-to-date loafer. He's living off the old folks all his life and don't amount to shucks. They will have a hard life."

The paper had no sooner reached the public than a committee was sent to him bearing a petition asking him to continue in the good old way and stated that they believed him to be a truthful, honest man.

AN INTERESTING STATEMENT.

C. M. Parrish Says He Has at Last Discovered a Positive Cure for Indigestion.

"For years," said the above druggist "we have been waiting for some one to discover a remedy that really will cure dyspepsia.

"I recently learned that a new remedy, Pepsikola Tablets, had been placed on the market, and on investigation I found that at last there is a remedy that surely will come.

"I laid in a big supply because I knew that as soon as the people began to know about this remarkable remedy there would be a big demand for it, and it is selling beyond my expectations."

It is not often a druggist sells a new remedy on a positive guarantee, but unless cured of nervousness, dizzy spells, sour stomach, coated tongue, palpitation and other symptoms of dyspepsia, Mr. Parrish will hand back your money cheerfully and without argument.

No one should hesitate on trying a 25-cent box of Pepsikola Tablets, as they will not cost you a penny should they fail to relieve and cure the very worst case of indigestion and dyspepsia.

—The man who expects nothing in this world is likely to be the happiest, for he will suffer fewer disappointments than his more optimistic brother. He who can contemplate with composure the sudden destruction of work to which he has devoted laborious hours, because it turns out to be superfluous, is also likely to be happier than his neighbor who labors under the delusion that his toil merits a better fate than oblivion.

1,000,000 Bushels of Wheat Burned.

East St. Louis, Ill., 10th.—The Union elevator, containing a million bushels of wheat, was destroyed by fire, entailing a loss of more than $1,000,000. The fire spread to the stables of the St. Louis Transfer company and 200 horses and 200 wagons were destroyed, as well as the stables. The fire originated in a brick engine house 30 feet from the elevator.

Throwing Fire at Soldiers.

Greek fire, which had several other names—wild fire, liquid fire, wet fire and fire rain—was the most destructive war material used before the introduction of gunpowder. Discovered by Callinicus, a Syrian, it was first used in the siege of Constantinople, 673-678, and at Mecca, 690. According to an eyewitness, it made a noise like thunder, looked like a dragon flying through the air and made night light as day. This, allowing for a vivid imagination, gives its striking characteristics when poured from caldrons, shot from copper tubes in balls of twisted flax or expelled from catapults in vials during sieges and naval engagements. Water made it burn more fiercely, and wherever it fell it spread a torrent of fire. So well was the secret of its production kept that its precise ingredients and admixture were still unknown, but it is certain that naphtha, sulphur, gums of resinous trees, charcoal, saltpeter, pitch and other bitumens were used.

Hot and Cold Crystals.

Whether we watch with the microscope a tiny crystal growing from a drop of solution or contemplate with the imagination the stages by which the fiery lavas of past geological periods sank to rest and crystallized, said Professor H. A. Miers in an address before the geological section of the British association at Cape Town, we view the same process. It is the transformation of liquid into crystal—not necessarily into a solid, for research shows there is no dividing line between liquid and solid. A plastic solid body may flow; a solid glass is only a super-cooled liquid. The real primary distinction is between crystalline and noncrystalline material. There are two great liquid reservoirs from which materials have crystallized—the sea with its dissolved salts and the subterranean baths of molten glass from which the igneous rocks have been derived.—New York Globe.

Japan's Pipe Bell.

There is a bell in Tokyo, Japan, which is made from tobacco pipes. So says the legend inscribed around the outside in four languages, English, French, German and Japanese.

The English version runs as follows: "This bell, cast in the city of Tokyo, Japan, Dec. 10, 1892, by Tsuda Sen, is made from the metal of tobacco pipes of more than a thousand men, once slaves, now free men."

The story is that in 1892 a woman missionary from America waged war on tobacco smoking and persuaded over a thousand men to forswear the habit. They therefore had no further use for their metal pipes, which were melted down and cast in the form of a bell. The metal resembles bronze, and the bell has a pleasant musical ring.

MANAGING HUSBANDS.

Some Eighteenth Century Ideas on This Interesting Subject.

Most quaint is some of the advice to women contained in an old book published in 1787. The volume describes itself as "an infallible Guide to the Fair Sex, containing Rules, Directions, and Observations for their Conduct and Behaviour through all Ages and Circumstances of life; as Virgins, Wives, or Widows, with Directions how to obtain all Useful and Fashionable Accomplishments suitable to the Sex." If the lady's husband was choleric she was told how to secure her own way by dexterously "yielding everything till he begins to cool, and then by slow degrees she may rise and gain upon the Man," or "when other Remedies are too weak, a little Flattery may be admitted, which, by being necessary, will cease to be criminal." With a covetous husband, pride, ambition, vanity, anger, kindness or even a dose of wine may be expected "to open or enlarge his narrow Mind." "The wife's business must be to watch for critical moments, and not let one of them slip without making her advantage of it." And a wife may be said "to want skill if by these means she is not able to secure herself in Good Measure against the inconveniences this scurvy Quality in her husband might bring upon her." All the frailties of poor, erring husbands are here set forth, singly, in plain, unmistakable language, neatly docketed, each with the recipe for cure appended thereto.

There are other interesting passages in the same book. Of spinsters the author says: "An old maid is now thought such a curse as no poetic fury can exceed, looked on as the most calamitous creature in nature. Modesty and Obedience, though necessary to all, are yet in a more eminent degree required here. Their Look, their Speech, their whole Behaviour should own a humble distrust of themselves." Concerning amusements this: "The reading of Romances seems now to be thought the peculiar and only becoming Study of young Ladies. It must be confessed their Youth may a little adapt it to them when they were children, and we wish they were always in their event as harmless."

Of another vanity: "There is also another great devourer of Time—we mean Dressing. Sure 'tis allowable upon a soberer account that those who design Marriage should give themselves the advantage of decent Ornaments and not by the negligent Rudeness of their Dress bely Nature and render themselves less amiable than she has made them. But, all this being granted, 'twill by no means justify that excessive Curiosity and Solicitude, that Expense of Time and Money, too, which is discovered."

HOW LINCOLN CLIMBED.

A Long, Hard Path to Reach a Good Fee Before the Supreme Court.

The lawyer who works his way up from a five dollar fee in a suit before a justice of the peace to a $5,000 fee before the supreme court of his state has a long and hard path to climb. Lincoln climbed this path for twenty-five years, with industry, perseverance, patience—above all, with that self control and keen sense of right and wrong which always clearly traced the dividing line between his duty to his client and his duty to society and truth. His perfect frankness of statement assured him the confidence of judge and jury in every argument. His habit of fully admitting the weak points in his case gained him their close attention to his strong ones, and when clients brought him questionable cases his advice was always not to bring suit.

"Yes," he once said to a man who offered him such a case; "there is no reasonable doubt that I can gain your case for you. I can set a whole neighborhood at loggerheads; I can distress a widowed mother and her six fatherless children and thereby gain for you $600, which rightfully belongs, it appears to me, as much to them as it does to you. I shall not take your case, but I will give you a little advice for nothing. You seem a sprightly, energetic man. I would advise you to try your hand at making $600 in some other way."

He would have nothing to do with the "tricks" of the profession, though he met these readily enough when practiced by others. He never knowingly undertook a case in which justice was on the side of his opponent. That same inconvenient honesty which prompted him in his storekeeping days to close the shop and go in search of a woman he had innocently defrauded of a few ounces of tea while weighing out her groceries made it impossible for him to do his best with a poor case. "Swett," he once exclaimed, turning suddenly to his associate, "the man is guilty. You defend him; I can't," and gave up his share of a large fee.—Helen Nicolay in St. Nicholas.

STAGE EPIGRAMS.

The theater is the chastener of life.—Euripides.

An actor is a public instructor.—Euripides.

The theater is the mirror of life.—Sophocles.

Actors are the only honest hypocrites.—Hazlitt.

The theater is the devil's own territory.—Edward Allyn.

The stage represents fiction as if it were fact.—Betterton.

The stage is the field for the orator as well as the comedian.—Roscius.

A passion for dramatic art is inherent in the nature of man.—Edwin Forrest.

The drama is the most refined pleasure of a polished people.—Dion Boucicault.

It is in drama where poetry attains its loftiest flight.—Don Luis I. of Portugal.

The stage is more powerful than the platform, the press or the pulpit.—Anna Dickinson.

A comedy is like a cigar; if good, every one wants a box; if bad, no amount of puffing will make it draw.—Henry James Byron.

Some Big Oysters.

The usual size of the shell of an oyster is three to five inches, but away back in tertiary times there were oysters in California that had shells thirteen inches long and seven or eight inches wide. The animal and shell doubtless weighed fifteen or twenty pounds, since the shells were five inches thick. These oysters have long been extinct, but their fossil shells are abundant. If the oyster farmer could produce individuals of such enormous size now and the flavor were good in proportion to its size we would be most fortunate. In that case a single oyster would be enough for one stew at the church festival.—St. Nicholas.

English Names.

Puzzling enough to an American is the English fashion of spelling a name one way and pronouncing it in quite another, but the cities are even worse than the individuals, since they deliberately adopt some alias. The town of Hull, for instance, is Kingston-on-Hull. It has no official recognition as anything else, yet as Hull it is known to nine out of ten, who would wonder if Kingston-on-Hull was near the town of Hull should they hear it mentioned. Even supposedly respectable cathedral towns are not above hiding identity, and to call New Sarum "Salisbury" is to give it its alias. The royal town of Windsor is really New Windsor, and the county of Hampshire, popularly shortened to Hants, is in reality the county of Southampton. Bradford-by-the-Sea is more correctly Morecambe, but rightly Poulton le Sande, while Bridlington, sometimes called Burlington, is more popularly Wakefield-by-the-Sea.

A Damaged Mirror.

To repair a damaged mirror post upon a sheet of tinfoil about three drams of quicksilver to the square foot of foil. Rub smartly with a piece of buckskin until the foil becomes brilliant. Lay the glass upon a flat table face downward. Place the foil upon the damaged portion of the glass, lay a sheet of paper over the foil and place upon it a block of wood or a piece of marble with a perfectly flat surface; put upon it sufficient weight to press it down tightly; let it remain in this position a few hours. The foil will adhere to the glass.

CALIFORNIA

Do you want to live where the climate is mild the year round—where labor is never oppressed by stress of weather, and where animal vitality is never lost by mere conflict with cold?

Do you want to live in a region where the resources are more varied than in any other equal area in the world, where the division of great ranches affords a fine opportunity to get a small farm that will assure you a competence?

Do you want to live where, with a minimum of labor, you can grow profitable crops of grapes and small fruit, oranges, lemons, olives, prunes and almonds, alfalfa and grain, where crops are sure, business is good and capital easily finds profitable investment?

Then go to California, where both health and opportunity await your coming.

The Chicago, Union Pacific and North-Western Line

is the most direct route to the Pacific Coast, and there are two fast through trains daily via this line, over the famous double-track railway between Chicago and the Missouri River.

Special low round-trip rates are in effect via this line throughout the summer to various Pacific Coast points, and colonist low rate one-way tickets will be on sale during September and October, which give an unusual chance for settlers to make the trip at a minimum of expense.

Daily and personally conducted excursions are operated through to San Francisco, Los Angeles, and Portland without change, on which a double berth in a Pullman tourist sleeping car from Chicago costs only $7.00, via the

CASTORIA.
Bears the Signature of Chas. H. Fletcher. The Kind You Have Always Bought

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

Railway to the Red Sea.

To the Red sea, not in Pharaoh's chariots, but in steam cars, is what the people are to do early this year, says the Chicago Tribune. Most of the constructive material and locomotives have been sent from Glasgow. The line extends from Suakim, the present sea terminus, 332 miles into the interior, traversing first northward and then ascending the plateau 3,000 feet high, which runs parallel with the coast. Stretching fifty miles across the waterless waste of desert, it reaches the Atbara river twenty miles below its confluence with the Nile. Skirting the river, it ultimately joins the Khartum-Wady-Halfa railway north of the Atbara bridge. The new line will cost about $10,000,000 and will include extensive bridge works. Suakim may cease to be a great port, as the new terminus, now known as Port Sudan, forty-five miles north of Suakim, already has developed greatly and has a population of 2,000. The country traversed is capable of great development.

BIG FLOATING BARN.

Lumbermen Will Take Unique Craft to Camps.

A novel sort of barn has recently been constructed at Beardstown, Ill., for a firm of lumbermen, says a Beardstown special dispatch to the Cincinnati Commercial Tribune.

It is a floating barn, for use in the logging camps, where it always has been a hard matter to provide suitable protection for horses during the cold weather.

It is constructed like a barge and has stalls for twelve horses, room for thirty tons of hay and grain and room for men in charge. The barn can be moved about in the river bottoms where logging camps are located.

Fairest Christmas Gift.

If I were Santa Claus I know
What I would give to every boy
And every little maiden. Oh,
It would not be a painted toy,
It would not be a blushing doll
Nor any sugared thing to eat.
The same gift I would give to all
And deem the giving sweet.

If I were Santa Claus and might
To each child give the gift I chose,
The world would glow with new delight
And lose the darkest of its woes,
For I would give to every boy
And every maiden I could find
The grace to gain unbounded joy
Through merely being kind.

A Little Vacation.

Conditions are changing in so many businesses that it would not be strange if the manufacturer had yet to plead for protection against the girl in her teens.

A young girl appeared at a large hat manufactory one Monday morning and asked for work. She was inexperienced, but they needed help badly, engaged her at once and took the time to teach her one department of the work.

She learned easily and very quickly, earned something the first day and in two days was making as much as any other girl in the room. They noticed that she seemed to enjoy the work and the prospect of good wages and were greatly surprised when she appeared at the office Friday night and desired to "settle up," saying that she was through work.

The manager asked if anything disagreeable had happened.

"Oh, no," the girl replied airily. "It's a real nice place to work, but I was only visiting in the city for a few days and thought I might make a little money. I'm going home tomorrow morning."—Youth's Companion.

Conscientious.

Young Wife—What's the trouble? Why do you sit on the edge of the chair? Husband—Well, dear, you know we are buying it on the installment plan and that's all I feel entitled to.—

A Little Farther On.

Just a little farther on waits a wondrous April dawn,
When the boughs will break in blossoms as a flag is lifted up,
When the grass will rise and run with the laughter of the sun
And the sky will seem to pour us wine from out a magic cup.
And we'll sing because of knowing all the songs the wind is blowing,
And the earth will be the gladder for the dreary days agone.
Then we'll catch the murmured words in the singing of the birds,
When the earth has rolled to springtime—just a little farther on.

For the good old earth it knows where the robin and the rose
Wait to set our hearts to leaping for the beauty of the day,
And it knows the necromance of the violets that dance
To the music of the brooklet that once more is loosed in play.
Ho, the blossom petals drifting in the breeze forever shifting
And the forests flaming greener for their battle with the snows!
Then we'll catch the melodies of the waking honeybees,
For the good old earth is rolling to the robin and the rose.

Shut your eyes and you may dream of the dandelion's gleam
Where the careless hand of springtime has been spilling all its gold,
While the meadow overnight flings aside the wintry blight,
And its carpet smooth as velvet is by fairy hands unrolled.
Then we'll know the tang and tingle of the blossom scents that mingle,
And we'll taste the joys of living in the wondrous April dawn,
For we're swinging to the whiles of the singing and the smiles,
To the blessedness of springtime—just a little farther on.

—W. D. Nesbit in Chicago Tribune.

Little Things.

It is no great task to play the piano. Still in playing some intricate passages the hands must move far more rapidly than the performer realizes. In Weber's "Moto Perpetuo," for instance, 4,541 notes are sounded in less than four minutes, or at the rate of twenty each second. In one of Chopin's "Studies" there is a greater demand made, as for two and one-half minutes twenty-six notes are struck each second.

In following the printed lines in a book or paper the eye in the course of a lifetime covers some 5,000 miles, and the ordinary correspondent pushes a pen over twenty to twenty-five miles of paper in the course of threescore and ten years.

The waiter in a restaurant covers from eight to fifteen miles a day without leaving his place of service, and in eating a full meal one's jaws exert a force of several tons in the mastication of food. A man winks 6,870 times in a year, and the energy he wastes in shaking hands in that time would lift eight tons one foot from the ground.

A GOOD NIGHT'S REST

"Speak for it!" she cried to doggie,
For she knew in her little heart,
That German Syrup, home's great treasure,
Could health and joy impart.

The greatest tonic on earth is a good night's rest. Restless nights and the terrible exhaustion of a hacking cough are dread dangers of the poor consumptive. But why this fear of the night when a few doses of Dr. Boschee's German Syrup will insure refreshing sleep, entirely free from cough or night sweat? Free expectoration in the morning is made certain by taking German Syrup.

We know by the experience of over thirty-five years that one 75-cent bottle of German Syrup will speedily relieve or cure the worst coughs, colds, bronchial or lung troubles—and that, even in bad cases of consumption, one large bottle of German Syrup will work wonders.

Two sizes, 25c and 75c. All druggists.

KEEP THE KIDNYS WELL.

Health is Worth Saving, and Some People Know How to Save It.

Many Bellefonte people take their lives in their hands by neglecting the kidneys when they know these organs need help. Sick kidneys are responsible for a vast amount of suffering and ill-health, but there is no need to suffer nor to remain in danger when all diseases and aches and pains due to weak kidneys can be quickly and permanently cured by the use of Doan's Kidney Pills.

W. R. Camp, of the firm of Kirk-Camp Furniture Co., Logan Ave. and 14th St., Tyrone, Pa., says: "Experience has taught me that Doan's Kidney Pills is an excellent remedy and one that strictly fulfills its promises. In the fall of 1897 I gave for publication in our local papers a statement covering my experience with this remedy and recommending it to others, and now in the month of June, 1904, I just as enthusiastically recommend it as I did at that time. Doan's kidney pills completely relieved me of an aching in the small of my back and lameness through the loins due to kidney trouble. We always keep this preparation in the house for use in case of need, and it has never failed to give splendid satisfaction. I heartily endorse it.

For sale by all dealers. Price 50 cents. Foster Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name, Doan's and take no other.

A Painful Accident

Miss Margaret Miller met with a serious accident this morning by falling on the icy pavement in front of the residence of Emil Joseph. The Dr. feared a broken hip, she was at once removed to the Hospital where she will have the best of care. Property owners should be compelled to keep their side walks in a less dangerous condition. Borough officers should see to it instead of having hospital bills to pay as well as damages from prosecution.

Death of William Rodenizer.

At 8:30 o'clock Saturday night William Rodenizer, an aged resident of Altoona, died at the home of his son, Edward Rodenizer, 420 Eighth avenue, of paralysis. He was stricken several years ago and since then had suffered several strokes, the final one being on Saturday morning and he sank rapidly until he passed away. Deceased was born at Pennsylvania Furnace on October 9th, 1831, and had resided in Altoona for a number of years. He was employed as a shopman until he was first stricken with paralyis and since then he has been an invalid. He was a member of the Second United Brethren church and is survived by three sons and one daughter as follows: Edward, of Altoona, James, of Glassport; William, of Butler, and Mrs. Carrie Messenger, of Johnstown. He is also survived by one brother, John Rodenizer, of Wisconsin. The funeral took place at 2 o'clock, Tuesday afternoon services were conducted at the house. Interment in Fairview cemetery.

Noted Pianist Stricken.

Chicaga, Feb. 14.—For nearly eight hours Mrs. Fannie Bloomfield-Zeisler, the world famous pianist, was missing from her home, and her friends and relatives, together with the police, were scouring the South Side of the city for her. During the afternoon Mrs. Zeisler returned to her home utterly exhausted. She declined to say where she had been or what she had been doing.

For some time Mrs. Zeisler has been greatly troubled with her eyes, which have failed steadily, and the fear of being compelled to abandon her musical work had so preyed upon her mind that she had become subject to periods of melancholia. She eluded her attendants and left the house alone. She was missed within a few minutes, and her husband hurried after her. She had disappeared, however, and no trace was found of her until she returned.

Dr. Crafts in Petrikin Hall.

"Little deeds of Kindness."

Captain Harshberger and sister, with the daughter of Mr. John O'Brian opened the meeting on Monday evening by singing a very sweet and appropriate piece, "Tell Mother I'll be there". Dr. Crafts remarked that it was one of the very few time when a suitable selection was made to preface his lecture on "That boy and girl of yours." The lecture was certainly a one of just such information and advice as is most timely. The little boys and girls and a goodly number were present really did credit to Bellefonte by the orderly and attentive behaviour. Dr. Crafts did a courteous appreciative "Little deed of Kindness" by sending to the Salvation Army Singers a check for $5.00 a most thoughtful kindly man he is. May his good work prosper.

A Success.

The euchre given Tuesday evening in the St. John's Catholic Hall, for the benefit of the newly erected convent was a marked success. Much credit is due to the ladies who so ably assisted in making this affair a euchre long to be remembered. A few of the lucky prize winners were, Miss Calderwood, Miss Sue Curry, Mrs. Clark, Miss Kate McGowan, Mr. William Beezer, Mr. Brouse, Miss Scandlon. Fine refreshments were served and those who were not able to attend Tuesday night should avail themselves of the opportunity, as we are pleased to announce that next Tuesday evening, another euchre will be held.

Cupid Shoots a Dart Among the Player Folks.

On Thursday afternoon at 3:30 o'clock George Ingram Kyle and Miss Lillian Gorman, members of the Conroy & Mack Company were united in holy bonds of wedlock by Rev. Patrick McArdle at the Catholic parsonage on East Bishop street. The groom is from Wheeling, West Virginia, and played a comedy part at the opera house Thursday evening. The bride is the musical directress of the company and is from Pittsburg, Pa.
